WASTEMASTER GCE - GCP

DE-WATERING, CONVEYING AND COMPACTING ALL IN ONE

WASTEMASTER GCP is designed for combined action of separation of solids present in the effluent, as well as compaction and dewatering of screened solids.
It consists of a perforated screen basket, a conveyor screw and a compacting module.

WASTEMASTER GCE is identical with WASTEMASTER GCP except for the missing compacting zone. GCE is suitable for applications in which screenings do not have to or must not be compacted (e.g. plastic materials).

The great flexibility of SPECO® Screw Screens makes them the ideal choice in a variety of applications for intermittent operation.
